

小西金属工業株式会社

Konishi Steel Industry Co., Ltd.

会社概要

company profile

Konishi Steel Industry Drying Ovens Various.

KONISHI
Drying Ovens

- Drying Oven for Metal board , Printing and Coating
 - Drying Oven for Metal can coating
 - Drying Oven for Varnish cambric
 - Various heat treatment furnace
 - Drying Oven for Building materials
 - Drying Oven for a made can
 - Hot air occurrence system
 - Aging Furnace
 - Curing Oven
 - Precure Oven
- And so on

Company Information

Company Name	小西金属工業株式会社 (Konishi Steel Industry Co., Ltd.) (KSI)
Foundation	June 1965
Establishment	May 1979
Business	Various Drying Ovens, Combustion Equipment, Pollution Control Equipment, Labor-Saving Machinery, Mechanical Repair, and Other Related Equipment. ・ ・ ・ Design, Manufacture, Construction ・ ・ ・
Capital	10,000,000 yen
Head Office	1-6-17 Torikai-Shinmachi Settsu City, Osaka 566-0065 Japan TEL 72-654-1777 FAX 72-653-1099
China Office	804 Block 12 Central District Jintai Garden Shantou Guangdong China TEL&FAX +86-754-88849295 (Business Tie-up: Jiangsu Huayu Printing & Coating Equipment Co.,Ltd.)
Registration	Permit the governor of Osaka. General construction industry. No.57-63060
Bank	Kansai Urban Banking Corporation (Ibaraki branch), Sumitomo Mitsui Banking Corporation (Ibaraki branch), The Senshu Ikeda Bank, Ltd. (branch Settsu)
Closing	(Once a year) in March.
Subcontract factory cooperation	25
Web Page	http://www.konishicorp.com/
Mail Address	info@konishicorp.com

Office

Company History

1965	June	Start combustion equipment, the production of drying machine.
1966~1974		Oven painted metal plate production, printing, drying machine 58 units, Deodorizing device 18 production units.
1976	April	Start a production oven heat recovery system.
1977	April	Begin to export overseas.
1979	May	Switch to the Corporation (5,000,000 yen in capital).
1987	January	Begin the production of gravure printing machine.
1988	April	Established the second factory.
1990	December	Contracts and sales Toyo Ink Engineering Co., Ltd.
1996	April	Capital increased to 10,000,000 yen.
1998	January	Start to production in China.
2000	April	Start to machinery exports China.
2006	August	Begin production to China the dryer commissioned by Toyo Seikan Co., Ltd.

The main products

Drying oven and furnace	Various paint dryer for printing, scanning oven.
	Inside the baking oven, hot air generator.
	Various heat-treating furnace, oven dry lamination.
	Paper, varnish oven processing, drying equipment film.
Pollution prevention	Deodorizing device. (direct combustion system, catalytic oxidation method)
	Method activated carbon aqueous.
Machinery	Gravure printing machine, slitter, rewinding machine, automatic machine.
	Conveyor, coating machine, printing equipment, steel sheet reversing device.
Energy conservation	Exhaust heat utilization system.
	Energy saving oven. <Patent No.1425505>
Mechanical repair	Various industrial machines.

The main trading partners

NAIGAI INDUSTRIES, INC. / SHINKO LITHOGRAPHING CO., LTD. /

Meiwa Pax Co., Ltd. / SAKURA SEIKI CO., LTD. /

TSUBAKIMOTO KOGYO CO., LTD. /
